Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	AS1	Seminar discussion 15mins	30	
Essay	AS2	Essay 2500words	70	

Aims

To provide an overview of the key considerations for the development and commissioning of a Recovery Oriented Integrated System (treatment system).

To provide an overview of the key aspects of prescribed treatment and recovery oriented integrated systems.

To provide an overview of the key evidence based approaches to prescribed

treatment and recovery with a focus on NICE recommended pharmacological and psychosocial approaches.

Learning Outcomes

After completing the module the student should be able to:

- 1 Evaluate the key aspects for planning, developing and implementing a Recovery Oriented Integrated System (drug and alcohol treatment system).
- 2 Appraise the key evidence based psychosocial approaches recommended by NICE.
- 3 Appraise the key evidence based pharmacological approaches recommended by NICE.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Seminar discussion 15mins	2	3
Essay 2500words	1	

Outline Syllabus

This module will explore how alcohol and substance misuse Recovery Oriented Integrated Systems (ROIS) have developed to incorporate a range of evidence based approaches to prescribed treatment and psychosocial interventions. Consideration is given to a whole system approach and the commissioning of a ROIS. Students will be introduced to the key NICE guidance psychosocial interventions and prescribed treatment.

Defining Treatment & Recovery

Recovery

Prescribed Treatment

Commissioning Services

A Whole Systems Approach

Evidence Based Practice: An Overview

The Evidence Base & Guidelines for Psychosocial Interventions

The Evidence Base and Guidelines for Prescribed Treatment

Treatment & Recovery in Practice

Learning Activities

Lectures, seminar discussion, tutorial, private study and practical work, both in groups and alone. Supporting materials, tutorials and group discussions will be available electronically via the college VLE.

Notes

The module will raise students' awareness and understanding of the challenges faced when developing a Recovery Oriented Integrated System including: 'Needs Assessment'; the use of research and data; engaging with key stakeholders; and, integrating evidence based practice into service delivery.

Students will be provided the opportunity to, and be encouraged to, become critical and reflective thinkers, develop analytical skills and work collaboratively with others.
