Aims and Outcomes

Aims	To provide knowledge and understanding of working with a range of client groups experiencing traumatic life events and problematic relationship issues.
-------------	---

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Evaluate a range of concepts and models of contemporary approaches to counselling.
MLO2	Identify and apply models of counselling practice to a specific client group.
MLO3	Assess the evolution and development of counselling practice.

Module Content

Outline Syllabus
This module explores the models of practice used with a variety of client groups. It will provide students with skills and techniques used to respond to clients with diverse needs. Client groups may include couples, people in abusive relationships, hard to reach groups, clients with Post-Traumatic Stress Disorder (PTSD), children, bereaved clients and clients hearing voices. Evolution and development of counselling practice Matching appropriate skilful practice to different client groups Contemporary counselling models

Module Overview

Additional Information

This module gives students the opportunity to learn specific and focused skills which can be applied to a variety of client groups as well as exploring the evolution of counselling practice. Students will present from a range of contemporary models of practice and evaluate their chosen models effectiveness, linking to research to support this.
