**Academic Level:** FHEQ5  
**Credit Value:** 36  
**Total Delivered Hours:** 8  
**Total Learning Hours:** 360  
**Private Study:** 352

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Tutorial	8

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	AS1	Portfolio of Reports & Tasks	100	

### Aims

*To provide students with the opportunity to develop and apply knowledge, understanding and skills already acquired during previous academic and WBL studies. The tasks will be geared to their particular maritime work placement*

### Learning Outcomes

After completing the module the student should be able to:

- 1 Define the purpose of the work based learning, agree learning outcomes and the outputs of the WBL with the Module leader.
- 2 Identify personal resource requirements for the successful completion of a WBL project or projects.
- 3 Critically evaluate theories and principles associated with the work based project or projects and relate these to the appropriate maritime discipline.
- 4 Describe and reflect on learning during the work based learning phase.

### **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

CW	1	2	3	4
----	---	---	---	---

### **Outline Syllabus**

*Self evaluation and experiential learning.*  
*Identification of suitable workplace opportunities.*  
*The nature of WBL.*  
*The management of learning through workplace opportunities.*  
*Describing and reflecting on learning.*  
*Specific topics based on student's placement*

### **Learning Activities**

This module is introduced through tutorials during the period at University. Students are required to complete work based learning, based upon a learning agreement between student, university and the placement organisation.

### **Notes**

This module is completed in the work environment. The specific tasks and projects will be based upon the work that the student is doing and will apply knowledge already gained on the programme. The tasks and projects are expected to be a combination of assignments, reports, and projects, designed to encourage awareness and critical evaluation. Tasks and projects will be agreed between student and tutor.
