Aims

To provide the student with additional depth in generic and audio industry specific employment and enterprise skills (i.e. employment and business structures and practices, business and event planning, negotiation, self-employment, financial and tax planning, etc.).

To consolidate generic and sector specific skills through focused application in the context of employment, career or enterprise planning.

Learning Outcomes

After completing the module the student should be able to:

- 1 Assess the fundamental financial and organisational structures and systems employed in the audio and related industries.
- 2 Identify potential employment and enterprise opportunities within the audio and related industries.
- 3 Apply generic and discipline-specific skills in the development of career or business planning.
- 4 Demonstrate the skills required to construct and manage an enterprise or event.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CAREER	1	2	3	4
DEVELOPMENT				
PORTFOLIO				

Outline Syllabus

- *The audio industry economy (structures, institutions and practice)*
- *The legal dimension of audio and related industries.*
- *Employment and self-employment.*
- *Planning and managing a career.*
- *Professional Development and life-long learning.*
- *Enterprise start-up and development.*
- *Event planning.*

Learning Activities

Learning takes place through a combination of institute-wide masterclasses and discipline specific lectures and workshops. The employment and enterprise focus of the module creates a strong emphasis on personal reflection and study as learning coalesces around applications of acquired skills through individual career and enterprise proposals and/or practices.

Notes

It is expected that by the end of level two of their studies students will have developed a clear and informed idea of their direction after they graduate. To support the development of their understanding students will: 1. Attend a series of masterclasses delivered by industry professionals on issues such as taxation and accounting; 2. attend a discipline specific See Me Now event, to learn from the career experience of alumni. The design of the career development portfolio will

provide the basis for further elaboration at level three and a focus for career development post-graduation
