Alistair Beere	Y

Academic Level: FHEQ5
Credit Value: 24.00
Total Delivered Hours: 75.00
Total Learning Hours: 240
Private Study: 165

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	50.000
Seminar	25.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Individual Report	60.0	
Presentation	AS2	Individual presentation	40.0	

Aims

To develop in learners an understanding of established and emerging project management theories and concepts.

To provide learners with an insight in to the importance of the management of project planning and control.

To provide learners with the ability to analyse the skills and competencies associated with planning and control.

To expose learners to the use of tools and techniques to achieve best professional

practice.

To facilitate learners in identifying appropriate corrective action when required.

Learning Outcomes

After completing the module the student should be able to:

- 1 Utilise the skills and competencies from the most recent project management developments.
- 2 Use appropriate methods, tools and techniques for effective project planning and control.
- 3 Apply good practice in the selection of leadership and members of the project team.
- 4 Apply the effective use of communication in project management.
- 5 Evaluate suitable configuration control and change management procedures within the context of a project.
