Report   4   5

Presentation   1   2   3

Outline Syllabus

The boundary and relationship projects and operations
Prince 2 principles, processes themes
Project success and failure
Team roles in project management
Project management information systems
Project management tools and techniques

Learning Activities

Lectures-formal lecture sessions will be used to introduce key issues from the module
Videos- videos will be shown to supplement the formal lectures. Some of the tutorial sessions will be used to explore issues from the videos in some depth
Group activities-group work is used to encourage you to work with, and learn from others. it also gives you practice of working in teams, which is an integral part of managing a project. A key component of the group activities is the use of a project management simulations.
Individual activities- some activities will be carried out on an individual basis. This will give you the chance to apply some of the key ideas from the module
Tutorials-lively discussion will enable you to enjoy the subject, learn from others and sharpen your own views on the subject. Thorough preparation for tutorials is essential in terms of enabling you to fully participate and as preparation for the assessments. Online tutorials will also be utilised

Notes

To develop the essential skills and knowledge needed in order to apply the prince 2 method to the management of organisations projects.
