### Aims

*To enable the student to prepare and evaluate financial statements within the context of the prevalent regulatory framework, and to demonstrate an awareness of the significance of accounting theory in contemporary and practical contexts.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate technical skill in the preparation of complex financial statements.
- 2 Demonstrate knowledge and understanding of current accounting regulations and be able to apply these.
- 3 Critically appraise a current issue related to financial accounting theory, in some depth, making use of accounting literature.
- 4 Demonstrate intelligent understanding of the issues involved across a range of topics in financial accounting theory.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CW	3		
EXAM	1	2	4

## Outline Syllabus

*History of Financial Accounting.*

*Conceptual Framework.*

*Accounting Theory.*

*Harmonisation of Accounting Standards.*

*Advanced Accounting Standards.*

*Interpretation of Published Company Accounts.*
