Aims

To provide an opportunity for Fashion students to undertake their own in-depth programme of projects and student directed contract learning.

To provide a structure of seminar and tutorial sessions in order to support and guide the Fashion students in their chosen field of study.

To engage Fashion students in an exploration of how the relevant industries

function, their business and professional practice.

To enhance student's learning by strengthening existing components of their PDP as evidenced in their 'portfolio-to-go'.

Learning Outcomes

After completing the module the student should be able to:

- 1 propose their own cohesive programme of projects and manage their own time and resources with a high level of professionalism in order to produce original design work to highly skilled level
- 2 professionally present and justify their work clearly and concisely in a variety of situations
- 3 employ incisive analytical and interpretative skills to critically evaluate their own work and that of others within a framework of agreed criteria
- 4 demonstrate their knowledgeable understanding of their subject and articulate their comprehension via a specialized design portfolio aligned to their professional environment requirements
- 5 expertly gather, analyse, synthesize and evaluate information from a variety of sources

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Outline Syllabus

The learning outcomes for this module will be achieved through project based learning agreements. Each student will devise their own programme of work, which is supported and guided by tutorials, weekly seminars and critiques. Students may work on one or more self-generated projects. They will be expected to work independently and demonstrate an ability to use available resources effectively. All students will carry out research towards the major project including market and visual research, sourcing materials and ingredients, assessing practicability and timescale, evaluation of information gathered.

Learning Activities

This module consists of lectures, seminars, fieldwork and a major practical design project defined by an individual learning agreement.
