Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
SEP-CTY	CTY	September	12 Weeks

Aims and Outcomes

Aims	To enable students to develop the skills necessary to plan and execute a systematic review.

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Identify research problems using material from a range of sources.
MLO2	2	Critically analyse the implications of key research methods for investigating practice-related problems.
MLO3	3	Critically evaluate the implications of research findings and identify strategies for potential change in practice.

Module Content

Outline Syllabus	Group tutorials: searching for literature; reviewing literature; systematic reviews; individual tutorials: as negotiated with the student.
Module Overview	The aim of the module is to enable you to develop the skills necessary to plan and execute a systematic review.
Additional Information	This module allows the registered nurse to demonstrate research knowledge and critical analysis skills through the preparation of a dissertation on a topic relevant to their professional practice. The students are directed by the module lead and their profession specific advisor from the team.
