Code: **6000HS** (127741)  
Version Start Date: 01-08-2021

Owning School/Faculty: Nursing and Allied Health  
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Julie Connolly	Y

**Academic Level:** FHEQ6  
**Credit Value:** 40  
**Total Delivered Hours:** 80  
**Total Learning Hours:** 400  
**Private Study:** 320

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	40
Tutorial	20
Workshop	20

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Dissertation	ASS1	Students will work closely with an individual supervisor to produce a dissertation in a relevant area of interest 10,000 words	100	

### Aims

*After completing this module, students will be able to plan, manage and report personal research in health and social care*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Provide a critical analysis of the issue
- 2 Provide an interpretation and synthesis of empirical or secondary sources
- 3 Show a critical application of appropriate conventions for dissemination

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Dissertation	1	2	3
--------------	---	---	---

## Outline Syllabus

*Revision of research methods and methodologies*

*Identification of appropriate primary and secondary sources*

*Research ethics and ethical approval*

*Identification of appropriate conceptual frameworks and theoretical perspectives*

*Reporting research findings*

## Learning Activities

Learning activities will focus on one to one supervision. Additional support will include lectures and research workshops.

## Notes

This module focuses around a major project or dissertation related to health and social care. It will offer an opportunity for an data analysis and reporting based on empirical study or desk-based research. Students will be allocated a supervisor who will guide them through the research process, from identifying a suitable area to reporting findings and analysis.
