Title: Engineering Project  
Status: Definitive  
Code: **6000MEQR** (129313)  
Version Start Date: 01-08-2021

Owning School/Faculty: Engineering  
Teaching School/Faculty: Oryx Universal College WLL

Team	Leader
Sean Malkeson	Y

**Academic Level:** FHEQ6      **Credit Value:** 40      **Total Delivered Hours:** 110  
**Total Learning Hours:** 400      **Private Study:** 290

### Delivery Options

Course typically offered: Year Long & NS Year Long

Component	Contact Hours
Lecture	6
Practical	60
Tutorial	44

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Interim Report	20	
Report	AS2	Final Report	60	
Presentation	AS3	Presentation & Viva	20	

### Aims

*The project aims to provide a supervised but student led learning activity in a relevant area of engineering or technology. It aims to develop the academic, technical and organisational skills required to undertake a substantial individual*

*engineering project from specification to conclusion.*

## **Learning Outcomes**

After completing the module the student should be able to:

- 1 Conceptualise and plan a supervised but self-led project
- 2 Carry out a self-managed programme of work according to good project management practices
- 3 Research and analyse the established body of knowledge relevant to the project
- 4 Demonstrate deep technical understanding of their project
- 5 Communicate technical information clearly and concisely in written and oral forms
- 6 Critically evaluate all aspects of a project and formulate justified conclusions

## **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Interim Report	1	2	3	5	
Final Report	2	3	4	5	6
Presentation and Viva	4	5	6		

## **Outline Syllabus**

*Projects may involve experiment, analysis, design and/or computation and should allow a student to demonstrate achievement of the module learning outcomes.*

## **Learning Activities**

The project will be supported by regular tutorials with a project supervisor and occasional seminars on topics relating to research methods, critical writing/thinking and presentation skills.

## **Notes**

The project provides the opportunity to conduct a major supervised learning activity on a relevant engineering or technical topic. The project requires the student to demonstrate good project management, critical evaluation and presentational skills.
