

Liverpool John Moores University

Title: RESEARCH WITH CHILDREN AND FAMILIES
Status: Definitive
Code: **6002BACHN** (100416)
Version Start Date: 01-08-2018

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Kate Knight	Y

Academic Level: FHEQ6
Credit Value: 12
Total Delivered Hours: 15

Total Learning Hours: 120
Private Study: 105

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	5
Seminar	5
Tutorial	5

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	AS1	20 minute Journal club presentation on a topic of childrens nursing care culminating in a research question	70	
Presentation	AS2	10 minute small group seminar presentation on the role of the nurse in research in relation to different clinical areas	30	

Aims

To enable the student to develop the skills necessary to implement evidence based

nursing as a first level children's nurse. To promote the generation of research questions from a clinical perspective.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically analyse methods for effectively researching with children and their families
- 2 Demonstrate the ability to contribute to a journal club presentation
- 3 Critically analyse ethical principles in relation to research with children
- 4 Critically evaluate the nurses role in relation to research in the clinical area

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Presentation	1	2	3
Presentation	3	4	

Outline Syllabus

Communication with children and families specifically relating to research. Consent/assent. Research methods appropriate to children. Vulnerability of children and families. Childrens voices in research. PICO - generating research questions COREC/LREC forms. Implementing evidence within child nursing practice.

Learning Activities

Lectures. Journal club meetings. Seminars. Tutorials. Blackboard

Notes

This module builds on the knowledge and skills learnt at level 2 and encourages the student to apply such knowledge specifically to childrens care. It aims to prepare students to take a key role in developing research in the future within childrens nursing
