## Notes

To provide an integrative approach ethical theory and reasoning and the role that they play in international business. To promote an understanding of the impacts both positive and negative of multinational companies on host countries. A critical evaluation of the ethical nature of international business.

## Feedback

Formative feedback will be given verbally via tutorial sessions. The tutorial sessions have been designed to test students knowledge and understanding on the previous lecture topic and students will be given feedback on this.

Summative feedback on the coursework assessment will be available after the module assessment boards. This will be given by the use of feedback sheets attached to students marked coursework's which will be available for collection from my office at an arranged date and time.
