LIVERPOOL JOHN MOORES UNIVERSITY

Managing Complex Care in Adult Nursing

Module Information

2022.01, Approved

Summary Information

Module Code	6003PRNAD
Formal Module Title	Managing Complex Care in Adult Nursing
Owning School	Nursing and Allied Health
Career	Undergraduate
Credits	20
Academic level	FHEQ Level 6
Grading Schema	40

Teaching Responsibility

LJMU Schools involved in Delivery
Nursing and Allied Health

Learning Methods

Learning Method Type	Hours
Lecture	10
Online	15
Workshop	15

Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
SEP-CTY	CTY	September	12 Weeks

Aims and Outcomes

Aims	To develop critical understanding of the complexity of care in adult nursing.

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Critically evaluate the evidence base for the delivery of complex care across settings.
MLO2	2	Critically consider the impact of the needs of patients and their significant others on care delivery.
MLO3	3	Critically analyse ethical and legal issues in caring for patients with complex needs.
MLO4	4	Critically analyse assessment, diagnosis and management of patients with complex pathophysiology.

Module Content

Outline Syllabus	Exploration of the concept of complex careDealing with the complexity of care across settings:Exploration of the complexity of care across settings: requiring input across settings,critical care/out of hospital/acute ward settings.Exploration of body systems from a lifespan approach and how each can createcomplexity e.g.: Respiration: examining respiratory failure and management of airwayRelevant anatomy, physiology, pathophysiology, psychology and pharmacology willbe included and the student will draw from previous modules in particular Humansciences.Venturing beyond the body systems/clinical conditions and exploring aspectsaffecting care and creating complexity e.g.: the individual's responses to healthchanging experiences, communication, patient as partner and dealing with possibleconflict (families/patients/staff), delegation and legal and ethical dilemmas.End of LifeCare Management
Module Overview	
Additional Information	The module aims to develop the student's understanding of the complexity of careand equip them with the skills required in nursing complex cases. It will allow thestudents to experience caring for patients with complex needs and also to considerthe effects of complexity on the patient, and on the family/carer.Students undertake guided independent learning and bring this to group activities inwhich scenarios are used to facilitate their professional knowledge and development.

Assessments

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Practice	CASE STUDY	80	0	MLO1, MLO2, MLO3, MLO4
Presentation	GROUPWORK FEEDBACK	20	0	MLO4
