Presentation	1	2	
Essay	1	2	3

Outline Syllabus

Leadership, NHS strategy and policy, evidence based practice, advancing paediatric nursing, the role of community nursing, non traditional roles for children's nurses. Barriers and strategies for change implementation, change management theory, ethics and research in relation to children, dissemination of results. Information searching, electronic databases.

Learning Activities

Lecture, web based activities, role play, scenario based learning,

Notes

This module will explore the current and possible future direction of paediatric nursing. It will prepare students for the transition into the Staff nurse role within a variety of settings. The module will be assessed through a presentation, looking at future roles for paediatric nurses and via a 2000 word essay exploring the management of change in a clinical setting.
