Display Name	Location	Start Month	Duration Number Duration Unit
SEP-CTY	CTY	September	28 Weeks

## Aims and Outcomes

Aims	To develop and consolidate skills and knowledge leading to autonomous midwifery practice.
------	---

**After completing the module the student should be able to:**

### Learning Outcomes

Code	Number	Description
MLO1	1	Critically plan, evaluate and manage the care of a mother throughout her childbearing continuum as the lead professional. (case Load)
MLO2	2	Develop a systematic understanding of the provision of evidence based care whilst working within the multi-professional team.
MLO3	3	Judiciously apply the skills and knowledge required to perform as an autonomous practitioner whilst undertaking clinical decision making.

## Module Content

Outline Syllabus	Assessed practice experience in the care and management of women throughout the childbirth continuum. NMC Essential skills clusters and Midwifery Domains (NMC, 2009). Achievement of NMC progression point two – entry to the midwifery part of the NMC register. Critical analysis of current reports, guidance and policies related to health, public health and midwifery. Standards of record keeping.
Module Overview	
Additional Information	The module will provide students with the opportunity to consolidate skills practised in levels 4 and 5. The student will continue to develop skills in clinical decision making and identify appropriate referral pathways in antenatal, intranatal and postnatal care under the supervision of a midwife. The student will be able to carry a case load to experience continuity of care. The students will have successfully completed the relevant documentation for submission. The documentation relates to the European Directives and NMC Essential skills clusters and Midwifery Domains. The module is graded in practice. This is a non-standard year long module, and runs across the course of the whole year to enable practice to be completed. Essential skills must be passed. (by simulation in exceptional circumstances). Students have a maximum of 2 attempts to pass this practice module, no further attempts will be allowed. Students undertake 2 placements as part of this module and are formatively graded at the end of each one. The 2 formative grades then feed into a final summative grade at the end of the module and after all placements have been completed. The student requires a grade of 40% to pass this module.

## Assessments

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Presentation	Practice	100	0	MLO1, MLO2, MLO3
