### Aims

1. To introduce students to the role of work attitudes and their relation to work performance.
2. To enable understanding of the principles of group and team working.
3. To introduce systems of managing health and safety in the workplace.
4. To introduce psychological approaches to organisational leadership.
5. To encourage critical thinking with the use of case studies and team discussion.

### Learning Outcomes

<b>Publisher</b>	Psychology Press
<b>ISBN</b>	

---

### **Notes**

This module examines the psychological issues relating to work performance. Work attitudes, organisational leadership, team and group working are introduced. Additionally, psychological research relating to occupational safety management with particular emphasis on safety culture are discussed. The module considers the historical context and development of theories within Occupational Psychology, in addition to introducing current and future trends. Case studies and group discussion are used to encourage critical thinking.
