JAN-CTY	CTY	January	12 Weeks

Aims and Outcomes

Aims	This module aims to provide students with an opportunity to gain insight and to experience selected areas of the programme of study from a work related learning perspective. The module provides students with the opportunity to undertake a 4-week work related learning placement or applied project. This allows students to work within a professional context and to take responsibility for their own learning. It will enable students to build on any previous work related learning experiences and to develop the process of making links between experiences and theoretical studies. The placement will allow students to develop and practice world of work skills, and to learn experientially in an area relevant to their future career choices.
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Work and communicate effectively with agency personnel, their clients and related organisations pre and post placement.
MLO2	2	Critically reflect on experiential learning.
MLO3	3	Critically evaluate the use of theory in practice.
