

Health Inequalities

Module Information

2022.01, Approved

Summary Information

Module Code	6007PUBHEA
Formal Module Title	Health Inequalities
Owning School	Public Health Institute
Career	Undergraduate
Credits	10
Academic level	FHEQ Level 6
Grading Schema	40

Teaching Responsibility

LJMU Schools involved in Delivery
Public Health Institute

Learning Methods

Learning Method Type	Hours
Lecture	16
Workshop	8

Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
JAN-CTY	CTY	January	12 Weeks

Aims and Outcomes

Aims	This module aims to consolidate students' knowledge of health inequalities, and their measurements and to stretch students to evaluate existing strategies aimed at reducing health inequalities.
------	---

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Critically analyse explanations for health inequalities and how these are applied to specific population groups
MLO2	2	Critically evaluate an existing strategy for reducing a defined health inequality

Module Content

Outline Syllabus	1. A brief history of health inequalities 2. Theories and explanations for inequalities and inequalities in health 3. The local, national and global perspectives of health inequalities 4. Measuring risk against specific populations who may experience health inequalities – people with disability (physical and mental health), migrants, refugees, asylum seekers, travellers, homeless, ethnic groups, religious groups, gender and sexuality, age, prison populations 5. Identifying and evaluating strategies, policies and interventions to reduce health inequalities
Module Overview	This module aims to consolidate your knowledge of health inequalities to evaluate existing strategies aimed at reducing health inequalities. Explanations, measurements and interventions to reduce risk of health inequalities and to tackle health inequalities which already exist will be analysed and evaluated.
Additional Information	This module aims to consolidate students knowledge of health inequalities. Explanations, measurements and interventions to reduce risk of health inequalities and to tackle health inequalities which already exist will be analysed and evaluated.
