Essay	AS3	debate/discussion	30	

Aims

To provide students with the skills necessary to identify and demonstrate awareness of contemporary issues in the maritime industry

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate an understanding of a range of contemporary issues in the maritime industry
- 2 Demonstrate a broad transferable skill base useful to prospective employers
- 3 Apply generic principles to case study examples

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CW	1	2	
CW	1	2	
CW	1	2	3

Outline Syllabus

The syllabus will vary from year to year as it is dependent on issues selected for study/ analysis at the beginning of the module. It will however be drawn from a range of contemporary issues relevant to the maritime industry.

There will be a series of five external speakers presenting a variety of subject material to the students.

Students will be expected to draw from a range of indicative references from their individual module studies plus a general interest in maritime current affairs from the following journals/periodicals.

Lloyds list

Fairplay International

Lloyds Ship Manager

Lloyds Economist

Seaways

IMO News

Focus - The Chartered Institute of Logistics and Transport

Learning Activities

Lectures, tutorials and seminars

Notes

This module is directed at providing the students with an opportunity to engage with a range of external professionals, from a variety of fields within the maritime industry

and demonstrate skills required for successful employment.
