**Credit Value:** 12  
**Total Delivered Hours:** 8  
**Total Learning Hours:** 120  
**Private Study:** 112

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Online	8

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	One report on the chosen topic areas and related to the measures taken in the workplace to deal with this issue 3000 words.	50	
Report	AS2	Second report based on original data collected in the workplace based on contemporary issue of their choice. 2000-3000 words.	50	

### Aims

*The aim of this module is to develop the students' ability to critically appraise topical issues in the Maritime sector.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Select suitable areas for study given the resources available.
- 2 Critically review those factors contributing to discussion within the selected areas.
- 3 Evaluate policy development within the selected areas.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Report	1	2	3
Report	1	2	3

## Outline Syllabus

*Contemporary issues in the shipping industry will be investigated and critically reviewed.*

*Attention will be given to Legal, Commercial and Operational considerations as appropriate to the areas of study undertaken.*

*Some issues will also require a more expansive review to include issues such as social implications and ethical considerations.*

*Examples of area for study would be Changing economic conditions, Piracy, Security, Globalisation, Waste control, Pollution, Manning.*

## Learning Activities

Students will be supported through tutorial sessions and provided with learning material through their distance learning pack.

## Notes

This module contributes to a distance learning programme allowing seafarers to progress to a BSc in Maritime Operations.
