Academic Level: FHEQ6 **Credit Value:** 5.00 **Total Delivered Hours:** 50.00
Total Learning Hours: 50 **Private Study:** 0

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	4.000
Online	46.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Case study review, 1000 words, 100%	100.0	

Aims

Students will demonstrate and develop management strategies in caring for patients following thoracic and oesophageal surgery.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically review the decision making process involved in undertaking surgical intervention for patients with thoracic and oesophageal disorders.
- 2 Critically appraise the management strategies employed, to encourage effective care of the patient's physical, psychological and social wellbeing, post surgery through to discharge.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CASE STUDY 1 2

Outline Syllabus

Anatomy and physiology review
Strategies for selecting patients for surgery
Immediate care of the patient post surgery
Preparing the patient for discharge

Learning Activities

Lectures with interactive discussions and workshops.
