Total Learning Hours: 50 **Private Study:** 0

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	4.000
Online	46.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Case study review, 1000 words 100%	100.0	

Aims

Students will be able to critically analyse options available for supportive care and symptom management in cancer, and the impact this will have on the individual and their family.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically review the policies and practice that underpin supportive care for the patient and their family.
- 2 Critically appraise options for symptom control, primarily nausea and vomiting, pain management, terminal agitation and respiratory secretions.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CASE STUDY 1 2

Outline Syllabus

Symptom management

Causes and treatment of nausea and vomiting

Causes and treatment of pain

Causes and treatment for respiratory secretions and agitation

Learning Activities

Lectures with interactive workshops and discussion.
