Tutorial	30

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	AS1	Conference paper and presentation	10	
Essay	AS2	Viva voce	20	
Essay	AS3	Dissertation.	70	

Aims

To allow students to develop their knowledge, skills and general expertise in relation to a technical, operational, management, business or policy related transport and/or logistics subject of their choice. To provide students with the opportunity to demonstrate their ability to learn and develop their skills independently.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate their ability to learn new skills, acquire new knowledge, adapt current skills and knowledge and apply them to specific outcomes in a self-directed mode of learning.
- 2 Organise and coordinate the resources at their disposal to achieve the project aims, including liaison with outside organisations.
- 3 Produce written work in accordance with the guidelines provided
- 4 Demonstrate skill in oral communication, including the ability to respond well to questioning

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CW	1	3	4
CW	1	2	4
CW	1	2	3

Outline Syllabus

There is no specific syllabus; however, the following items should be addressed during the programme of study:

Selection of project and rationale for choice: identification of project objectives and programme, planning and scheduling of project tasks, relationship with previous research in the subject area.

Project progress: Adherence to schedule, regular meetings with nominated supervisor.

Deliverables: Submission of written paper (approximately 1000 words) and presentation of findings at annual Undergraduate Transport Research Conference; preparation and submission of a bound dissertation of 12,000-18,000 words; viva voce examination at end of project.

Learning Activities

Self directed with supervisor support.

Notes

The Transport Project is a single integrative, supervised activity on a relevant transport and/or logistics topic. Under supervision by a nominated member of the academic staff, the student develops his/her area of study to the required level and

presents the findings in both written and oral forms.
