Category	Short Description	Description	Weighting (%)	Exam Duration
Report	Essay	Individual essay based on a project management case study, 2,500 words.	40	
Exam	Exam	Project management fundamentals exam (closed book, multiple choice).	20	1
Report	Report	Produce a Project Brief, Project Plan and Risk Analysis, 2,500 words.	40	

### Aims

*To equip students with the knowledge and skills to understand the relevance and significance of project management principles in an organisational context.*

*To enable students to demonstrate competence in the application of project management methods through the project life cycle.*

## **Learning Outcomes**

After completing the module the student should be able to:

- 1 Explain the characteristics of organisation approaches to project management.
- 2 Evaluate the importance of effective management of the project life cycle.
- 3 Critically analyse the skills and competencies required of the project team and project manager.
- 4 Transfer detailed knowledge of the concepts of stakeholders, success criteria and critical success factors and apply systematically in the context of projects.
- 5 Apply methods, tools and techniques for planning, monitoring and controlling projects and for managing risk.
- 6 Be able to evaluate and use computer packages in providing planning and reporting information to assist in managing projects.
- 7 Utilise the highly specialized knowledge of a recognized project methodology by critically applying to specific project scenarios.

## **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Report 2	1	2	3
Examination	7		
Report 1	4	5	6

## **Outline Syllabus**

- 1. Introduction to project management*
- 2. Planning and monitoring of projects*
- 3. Project lifecycles*
- 4. Understand the make-up of project teams and structures*
- 5. Management of risk and stakeholders in projects*
- 6. Success and Failure criteria*
- 7. Recognised project methodologies*
- 8. Use of project management software*

## **Learning Activities**

Lectures and workshops where group discussion is encouraged. Case studies highlighting particular project issues will be used in group discussion and structured exercises.

## **Notes**

The module takes a broad approach to the subject of project management. It examines the implications of using project management principles to manage all types of organisational change. It analyses methods and techniques for managing a project through its life cycle. It allows the student to combine creative thought and specialised knowledge to realistic business scenarios in which they may be unfamiliar, but still require a valid management approach within imposed constraints.
