**After completing the module the student should be able to:**

### Learning Outcomes

Code	Number	Description
MLO1	1	Identify and assess areas for personal development.
MLO2	2	Plan for achievable milestones in skills progression.
MLO3	3	Evidence autodidactic learning in an engaging manner.

### Module Content

Outline Syllabus	Week 1: Students will identify areas for development in their chosen skillset and plan for key milestones. Weekly workshops will support hardware or software progression in their chosen specialism. Every two weeks, students will present progress and confirm further development stages with their tutor in seminars. If they fall behind or move ahead of milestones, the learning plan will be negotiated accordingly with tutor approval.
Module Overview	
Additional Information	Students will be informed about the module in semester two of level five. They will be presented with creative hardware and software areas to choose a specialism from. This should be confirmed over the Easter period to aid planning. The module allows for flexibility to offer options in line with industry trends and student needs.
