

Summary Information

Module Code	6024LBSBSC
Formal Module Title	Logistics and Transportation
Owning School	Business and Management
Career	Undergraduate
Credits	20
Academic level	FHEQ Level 6
Grading Schema	40

Module Contacts

Module Leader

Contact Name	Applies to all offerings	Offerings
Foteini Stavropoulou	Yes	N/A

Module Team Member

Contact Name	Applies to all offerings	Offerings
--------------	--------------------------	-----------

Partner Module Team

Contact Name	Applies to all offerings	Offerings
--------------	--------------------------	-----------

Teaching Responsibility

LJMU Schools involved in Delivery
Business and Management

Learning Methods

Learning Method Type	Hours
----------------------	-------

Lecture	22
Seminar	22

Module Offering(s)

Offering Code	Location	Start Month	Duration
JAN-MTP	MTP	January	12 Weeks

Aims and Outcomes

Aims	To provide a thorough understanding of the complexities of transportation and logistics systems with particular focus on different transport modes and inter-modal transport.
-------------	---

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Critically assess the relative suitability of various transport modes.
MLO2	Determine appropriate strategies for warehousing and transport terminals.
MLO3	Formulate and critically evaluate inter-modal transport solutions.

Module Content

Outline Syllabus
• Logistics and Transportation Systems• Transport terminals• Warehousing• Containerisation• Inter-Modal Transport• Key Transport Modes: Road, Rail, Water, Air• Recent Developments in Logistics and Transportation

Module Overview
This module aims to develop your understanding of logistics and transportation systems. It forms an integral part of the Operations and Supply Chain Management pathway and builds on concepts introduced in the Level 5 modules in this pathway. It will enable you to assess different transport modes and to propose appropriate capacity planning and control approaches.

Additional Information
This module will develop the students' understanding of logistics and transportation systems. It forms an integral part of the Operations and Supply Chain Management pathway and builds on concepts introduced in the Level 5 modules in this pathway. It will enable students to assess different transport modes and to propose appropriate capacity planning and control approaches.

Assessments

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Learning Outcome Mapping
Portfolio	Portfolio	100	0	MLO2, MLO1, MLO3
