Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

8,000 words dissertation	1	3
Presentation	2	4

Outline Syllabus

Generating research aims and objectives
Deconstructing the dissertation
Critiquing research evidence
Ethical considerations in research
Designing valid and reliable methodological approaches
Refinement of data collection tools
Data analysis
Presentation of results
Discussing and concluding research

Learning Activities

Many of the elements of this module will be explored in Lectures, Seminars and ICT software demonstrations. Students will be offered individual consultations and tutorials.

Notes

This module will enable students to discover issues surrounding the conducting of

research in Sport Development-related fields. The module will demand that students design and conduct a substantial piece of research in an appropriate topic area. Students will present both a written thesis and also a verbal presentation of their research project. In addition to this, students may also be required to defend their dissertation in viva-voce examination.
