Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	2
Practical	6
Seminar	6
Tutorial	10

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	Report	Report	50	
Presentation	Debate	Debate/Discussion	50	

Aims

To provide students with the skills necessary to identify and demonstrate awareness of contemporary issues in the maritime industry

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate an analytical understanding of a range of contemporary issues in the maritime industry
- 2 Demonstrate an ability to appraise and engage in critical discourse on current maritime affairs

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Report	1
Debate/Discussion	2

Outline Syllabus

The syllabus will vary from year to year as it is dependent on issues selected for study/ analysis at the beginning of the module. It will however be drawn from a range of contemporary issues relevant to the maritime industry. There will be a series of four external speakers presenting a variety of subject material to the students.

Learning Activities

Lectures, tutorials and seminars

Notes

The module allows students, in a participatory way, to engage with a range of industry professionals, and to report on contemporary issues affecting the industry, and to stimulate academic debate.
