Private Study: 120

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	30.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	Proposal		70.0	
Presentation	Poster		30.0	

Aims

The aim of this module is to enable the student to develop a critical approach to the development of their knowledge and skills in specialist general practice nursing. This will enable them to develop the knowledge and skills to become an effective leader who can manage the care of individuals and groups within the primary care setting

Learning Outcomes

After completing the module the student should be able to:

- LO1 Critically analyse the use of profiling a practice population in order to initiate and contribute to strategies designed to promote and improve health and prevent disease in individuals and groups
- LO2 Critically explore the initiation and carrying out of health screening and health promotion programmes and their evidence base
- LO3 Critically analyse the management of programmes of high quality care for patients with chronic disease and long term illness
- LO4 Articulate confidently the management of change and the organisational development of an identified setting, and the practice nurse's role with the process to produce high quality, cost effective & equitable care

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Proposal for service devt	LO 1	LO 3	LO 4
Poster presentation	LO 2
