Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Online	12.000
Seminar	3.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	AS1	Comparative Analysis Assessment	50.0	
Report	AS2	Research Paper	50.0	

Aims

To create an awareness of the global construction industry and the UK's position within that market and its environment.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically examine the structure of the global construction industry.
- 2 Evaluate the structure, technology and market environments in construction industries worldwide.
- 3 Critically examine the issues of culture and diversity and its impact on the construction industry.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

RESEARCH PAPER	2	3
REPORT	1	2

Outline Syllabus

Review of the European Union, history and legislation with particular reference to the impact on construction.

Structure and factors of individual countries and the global construction industry.

Factors relating to design and technology in global markets.

Aspects of international business management.

Learning Activities

Lectures and seminar/workshops will be used. Students are encouraged to use their research skills to develop their particular areas of interest through comparative analysis of material.
