Aims

This module aims to provide students with an opportunity to gain insight and to experience selected areas of the programme of study from a work related learning perspective; to develop the process of making links between placement experiences and theoretical studies; to develop and practice world of work skills to increase self-awareness and employability in an area relevant to their future career choices.

Learning Outcomes

After completing the module the student should be able to:

- 1 Work and communicate effectively with agency personnel, their clients and related organisations pre and post placement
- 2 Display a critical awareness of the experiential learning process and an ability to reflect and evaluate learning from the placement as a whole
- 3 Critically evaluate the placement and apply theory to practice

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Outline Syllabus

Undertake and complete a 20 day work related learning placement; Skills audits; Learning agreements; Lectures to develop; specific work of work skills; Guest lectures from various industries will support the theory

Learning Activities

The majority of this module is spent on projects. Students will be placed with an agency where they will be required to understand the working of the agency. Students will be required to work independently and as part of a team, managing time and setting their own objectives. Lectures and seminars will help to develop high level graduate skills. Guest speakers from various industries will support the theory.

Notes

Work related learning is essential to enable theory to be put into practice in a work situation. Work related learning placements and projects can introduce future employment opportunities and highlight career options.
