## **Outline Syllabus**

*This module provides educational professionals with an opportunity to complete a supported personal study based on their professional practice. Through lectures and individual tutorials, students are supported in completing an assignment related to their professional needs and a specific topic of study. This is linked to a specific professional practice issue which is interrogated within the research and theoretical framework.*

## **Learning Activities**

Lectures, tutorials, work based learning, independent study.

## **Notes**

This module provides a framework for students to investigate and reflect on an issue central to their professional role and professional practice. Students will be supported and equipped with the requisite knowledge and skills to complete an in depth analysis of the issue under study while linking this to their personal and professional needs.
