Offering Code	Location	Start Month	Duration
JAN-MTP	MTP	January	12 Weeks

Aims and Outcomes

Aims	To provide opportunities for education professionals to investigate, reflect and develop practice in relation to a given topic of study. To encourage students to develop critical faculties in relation to research, policy and practice in relation to a current issue in education and present their findings.
-------------	---

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Evaluate and discuss theory in relation to professional practice.
MLO2	Critically evaluate techniques for information selection and personal research suitable for small scale independent research.
MLO3	Analyse and critically discuss the research literature available relating to the topic.
MLO4	Synthesise and critically evaluate research findings.
MLO5	Demonstrate effective presentation skills and formulate a presentation of findings appropriate to audience.

Module Content

Outline Syllabus
This module provides educational professionals with an opportunity to complete a supported personal study based on their professional practice. Through lectures and individual tutorials, students are supported in writing a presentation related to their professional needs. This is linked to a specific topic which is interrogated within the research and theoretical framework.

Module Overview

This module provides you with an opportunity to complete a supported personal study based on your professional practice. Through lectures and individual tutorials, you are supported in completing an assignment related to a specific topic and tailored to your professional needs. This is linked to a professional practice issue which is interrogated within the research and theoretical frameworks.

Additional Information

This module provides a framework for students to investigate and critically reflect on an issue central to their professional role and professional practice and to present their findings to a professional audience. Students will be supported and equipped with the requisite knowledge and skills to complete an in depth analysis of the issue under study while linking this to their personal and professional needs.
