## **Summary Information**

| Module Code         | 6105STATS                        |  |
|---------------------|----------------------------------|--|
| Formal Module Title | Statistics in the Workplace      |  |
| Owning School       | Computer Science and Mathematics |  |
| Career              | Undergraduate                    |  |
| Credits             | 20                               |  |
| Academic level      | FHEQ Level 6                     |  |
| Grading Schema      | 40                               |  |

## **Module Contacts**

### Module Leader

| Contact Name | Applies to all offerings | Offerings |
|--------------|--------------------------|-----------|
| lan Malabar  | Yes                      | N/A       |

### Module Team Member

| Contact Name | Applies to all offerings | Offerings |
|--------------|--------------------------|-----------|
| lan Jarman   | Yes                      | N/A       |
| Elon Correa  | Yes                      | N/A       |

### Partner Module Team

| Contact Name | Applies to all offerings | Offerings |
|--------------|--------------------------|-----------|
|--------------|--------------------------|-----------|

# **Teaching Responsibility**

| LJMU Schools involved in Delivery |  |
|-----------------------------------|--|
| Computer Science and Mathematics  |  |

## Learning Methods

| Learning Method Type | Hours |
|----------------------|-------|
| Lecture              | 11    |
| Practical            | 22    |
| Tutorial             | 22    |

## Module Offering(s)

| Offering Code | Location | Start Month | Duration |
|---------------|----------|-------------|----------|
| SEP-CTY       | СТҮ      | September   | 12 Weeks |

### **Aims and Outcomes**

| Aims | This module aims to give students an experience of campus-based work related learning focusing on the role of a statistician in industry and how statistical methods are applied in both manufacturing and |
|------|--|
|      | business.  |

## Learning Outcomes

### After completing the module the student should be able to:

| Code | Description  |
|------|--|
| MLO1 | Define the many roles of a Statistician in industry. – e.g. Financial Statistician, Risk Analyst, etc. |
| MLO2 | Solve work-based problems using any necessary statistical techniques and tools.                        |
| MLO3 | Critically evaluate and analyse problem results in terms of industry requirements.                     |
| MLO4 | Communicate outcomes in a formal scientific manner (either written or verbal).                         |

## **Module Content**

### **Outline Syllabus**

It is anticipated that there will be a minimum of two case studies per delivery of the module, but this may vary as case studies are developed. Generally, each project/case study will have the format:Role of the Statistician in industry; problem definition (including data requirements, knowledge requirements, etc.); importance of the problem within the company; possible solution strategies (vague outline for discussion); report/presentation requirements.Examples of such projects/case studies include:Financial Statistics e.g. Actuarial problems.Risk Analysis.Medical Statistics in the Drugs industry.Statistical process control in manufacturing.Forensic statistics.Recommender Systems.

### Module Overview

This module aims to give you an experience of campus-based work related learning focusing on the role of a statistician in industry and how statistical methods are applied in both manufacturing and business.

#### **Additional Information**

Real projects derived from the work setting will be used as case studies to enable students to use their statistical knowledge and skills to solve real-world problems. Actual work-place data and constraints will be used to simulate work problems. Indicative references will depend specifically on the case studies being developed.

#### Assessments

| Assignment Category | Assessment Name | Weight | Exam/Test Length<br>(hours) | Learning<br>Outcome<br>Mapping |
|---------------------|-----------------|--------|-----------------------------|--------------------------------|
| Portfolio           | Portfolio       | 100    | 0                           | MLO2, MLO3,<br>MLO4, MLO1      |
