Outline Syllabus

Approximately 140 hours engagement with a workplace environment during the course of an academic year, appropriate to the academic level of study.

10 hours re-enforcement and supportive learning activity within the University.

Learning from a work-based experience will be measured and assessed against specific learning outcomes.

Learning Activities

Approximately 140 hours engagement with a workplace environment.

Notes

This module provides the opportunity to apply concepts acquired during a programme of study to the work environment. The student will appreciate the economic/environmental context of the placement and will acquire skills to perform tasks designated by the employer.

The module guide provides guidance for students and employers involved in the development of work based learning. The module guide will set out the minimum work based learning requirements for students and employers and includes useful documents and templates to support work based learning practice.
