Aims

This module will build on the specialist knowledge acquired in Contemporary SCPHN practice part 1. It will enable the student to develop their knowledge and abilities in

SCPHN practice.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically review understanding of the complexity of SCPHN practice and service development
- 2 Demonstrate a critical understanding of the concepts that underpin strength based approaches to practice SCPHN
- 3 Demonstrate a critical understanding of the strategic provision of services to meet the populations health needs
- 4 Critically analyse the importance of measuring effectiveness in service provision
- 5 Demonstrate competence in relation to the professional standards of practice for the role

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Literature review	1	2	3	4	
Practice					5

Outline Syllabus

Assessing and evaluating practice.

Measuring outcomes

Public health approaches to service development

Ethical dilemmas in contemporary practice

Critical review of public health policy

A leadership approach to service development

Strengths based working and supporting theories; such as self-efficacy theory, self-determination theory.

Learning Activities

Research-informed lectures, seminars, group tutorials, blackboard, learning in practice, self-directed study including researching the evidence-base for practice

Notes

This module will continue to provide a theoretical foundation to SCPHN practice and enable practitioners to develop innovative and creative practice.

In this module students are required and facilitated to extend their theoretical learning to apply to their own core settings / clients, and this is reflected in their assignments. In addition there are route specific sessions with a health visitor or

school nurse focus.

The Practice Evidence Tool must be passed in order to pass this module.
