Exam	Exam	Written exam	40	1.5

Aims

On completion of this module students will be able to work with individuals, families and communities to improve, promote and protect their health and well being and reduce inequalities.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically analyse approaches to facilitate health improvement for SCPHN practice
- 2 Critically analyse professional, legal and policy frameworks aimed at developing and advancing ethical SCPHN practice.
- 3 Investigate the role of the SCPHN in reducing health inequalities
- 4 Critically evaluate theories and skills of behaviour change for public health interventions.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Poster	1	2	3
Exam	4		

Outline Syllabus

Assessing needs of individuals, families, groups and communities

Models of health promotion and application to practice.

Collaborative working in promoting health

Facilitation of health enhancing activities

Health policy / influencing policies affecting health

Ethical issues in SCPHN practice

Promoting equity, valuing diversity and reducing inequalities

Importance of valuing diversity in the population and the need to address its impact on health.

Solihull Approach training

Child development

The concept of engagement to enhance practice

Concepts of behaviour change

The knowledge, skills and approach of Motivational Interviewing in practice

Learning Activities

Research-informed lectures, seminars, group tutorials, blackboard, learning in practice, self-directed study including researching the evidence-base for practice

Notes

This module will provide a theoretical foundation to SCPHN. Practitioners can build on this module to develop innovative and creative practice.

In this module students are required and facilitated to extend their theoretical learning to apply to their own core settings / clients, and this is reflected in their assignments. In addition there are route specific sessions with a health visitor or school nurse focus.

This version of the module is for students who have an NMC recognised non-medical prescribing qualification
