Module Overview	In this module you are required and facilitated to extend your theoretical learning to apply to your own core settings/clients, and this is reflected in your assignments. In addition there are route specific sessions with a health visitor or school nurse. The module continues to provide a theoretical foundation to your practice as well as enabling practitioners to develop innovative and creative practice.
Additional Information	This module will continue to provide a theoretical foundation to SCPHN practice and enable practitioners to develop innovative and creative practice.In this module students are required and facilitated to extend their theoretical learning to apply to their own core settings / clients, and this is reflected in their assignments. In addition there are route specific sessions with a health visitor or school nurse focus.The Practice Evidence Tool must be passed in order to pass this module.This module includes community practitioner prescribing which is assessed by an exam. The pass mark is 80%, however the numeracy questions must score 100%. Additionally, if any answers suggest risking the patient's health, the exam will be marked as a fail. The prescribing competences in the V100 Practice Competency Framework Document must also be passed. The prescribing element of this module is graded as pass / fail.Learning Outcome for V100 Nurse PrescribingPractice within a framework of professional accountability and responsibility to apply and display knowledge of drug action in prescribing practice to provide a rationale to support the decision making process in safe, appropriate and cost-effective prescribing within area of individual practice.
