Aims and Outcomes

Aims	To enable experienced children's nurses to develop the ability to transfer their existing skills and knowledge in order to provide safe, evidence-based, risk-managed, holistic nursing care to children, young people and their families within the community context. In particular this will include children with acute and short-term conditions; children with long term conditions ; children with disabilities and complex conditions including those requiring continuing care and neonates and children with life-limiting illness, including those requiring palliative and end of life care.
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Demonstrate a critical understanding of contemporary challenges facing Community Children's Nurses
