**Academic Level:** FHEQ6  
**Credit Value:** 20  
**Total Delivered Hours:** 40  
**Total Learning Hours:** 200  
**Private Study:** 160

### Delivery Options

Course typically offered: Semester 1

Component	Contact Hours
Lecture	16
Seminar	6
Tutorial	2
Workshop	16

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	LA	3000 words	70	
Presentation	Pres	a case presentation	30	

### Aims

*The aim of the module is to enable the student to develop a critical understanding of the knowledge and skills which are required in order to effectively work as a specialist general practice nurse*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Critically analyse the assessment, planning, provision & evaluation of care to meet the needs of individuals and groups in a general practice population.
- 2 Appraise the assessment, diagnosis and treatment of specific diseases in accordance with agreed national and local protocols & policies in collaboration with others.
- 3 Analyse strategies and evidence based interventions which can be used to promote the health of individuals, carers, families and groups
- 4 Differentiate what is required to provide specialist nursing care to a range of patients within a practice population
- 5 Critically examine the diagnostic, health screening, health surveillance and therapeutic techniques, which meet the needs of individuals and groups within a practice population.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Learning agreement	1	2	4	5
Case Presentation	3
