

# Psychology Dissertation

## Module Information

2022.01, Approved

### Summary Information

Module Code	6200PSYSCI
Formal Module Title	Psychology Dissertation
Owning School	Psychology
Career	Undergraduate
Credits	40
Academic level	FHEQ Level 6
Grading Schema	40

### Teaching Responsibility

LJMU Schools involved in Delivery
Psychology

### Learning Methods

Learning Method Type	Hours
Lecture	4
Practical	105
Tutorial	15

### Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
			12 Weeks

### Aims and Outcomes

Aims	This module aims to allow students to develop and independently apply their empirical research skills in their chosen area of psychology. They will explore, in depth, recent and relevant literature in their chosen field and use it to guide the design of a methodologically appropriate study to address a specific research question. They will independently analyse, report and critically evaluate their data using scientific language and conventions.
------	---

**After completing the module the student should be able to:**

### Learning Outcomes

Code	Number	Description
MLO1	1	Critique recent and relevant literature within a theoretical context.
MLO2	2	Develop appropriate questions independently based on a critical review of recent and relevant literature.
MLO3	3	Critically select appropriate methodology to address the research questions.
MLO4	4	Critically appraise ethical issues in the procedure of the empirical study.
MLO5	5	independently interpret and evaluate empirical data with reference to the research questions

### Module Content

Outline Syllabus	The student devises and conducts a research project under supervision. The student attends a lecture in semester two of the year preceding registration for an introduction to the module. The student attends two lectures in semester one of the year of registration covering assessment issues, ethical issues and literature searching skills.
Module Overview	This module aims to allow you to develop and independently apply your empirical research skills in your chosen area of psychology. You will explore in depth, recent and relevant literature in your chosen field and use it to guide the design of a methodologically appropriate study to address a specific research question.
Additional Information	This is a core module for students as the psychology programme. Students carry out an empirical investigation into a psychological area of their choice. Students will be expected to meet with their supervisor for up to 15 hours maximum of tutorials over the course of the module arranged by mutual agreement. Students will have opportunity to obtain feedback about the strengths and weaknesses of a draft copy of their dissertation report if they submit it by the agreed deadline.

### Assessments

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Dissertation	Dissertation	85	0	MLO1, MLO4, MLO5
Report	Proposal	15	0	MLO1, MLO2, MLO3, MLO4
