Workshop	10

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	Open Book Examination	50	2
Report	AS2	Professional Practice Report	50	

Aims

To have a comprehensive understanding of professional practice through appreciating individual and organisational needs in the context of the internal and external environment

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically evaluate the importance of conducting professional practice in the industry
- 2 Analyse the purpose and role of corporate governance to all stakeholders within an organisation, and its relationship to risk management
- 3 Evaluate the factors that impact on workforce planning in relation to organisational plans and objectives

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	1	2	3
REPORT	1	2	3

Outline Syllabus

- *Management theory and concepts*
- *Organisational behaviour*
- *Ethical and social responsibilities*
- *Professional practice*
- *Corporate governance and risk*
- *Business continuity planning*
- *Project management*
- *Human resource management*

Learning Activities

Lectures are used in order to identify and explain key concepts and theories and provide detailed information on particular subject areas within the module. They help to stimulate the student's interest in the subject area. Lectures may also include guest industry speakers to add industry context to the material.

Workshops are used to engage students in more intensive discussion and activity on particular subject areas within the module. This helps shape the student's own understanding and place the lecture material in context.

Notes

Provides students with knowledge and understanding of being a chartered building surveyor
