### Aims and Outcomes

<b>Aims</b>	This module aims to enable students to develop, apply and analyse the knowledge, skills and attitudes necessary to effectively and successfully undertake a work based learning opportunity.
-------------	--

### Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Apply relevant skills and abilities to the work based learning opportunity and critically evaluate the achievement of agreed workplace objectives.
MLO2	Critically evaluate skills and abilities as these relate to the world of work.
MLO3	Critically situate their work based learning opportunity within a broader academic context.

### Module Content

Outline Syllabus
Students will be expected to undertake a work based learning opportunity with a local employer/organization and effectively progress the learning objectives agreed in association with the workplace provider and their academic supervisor. The module is supported by workshops and individual supervision to enable the student to develop and enhance their work based knowledge, skills and abilities and to contextualize their work based learning opportunity relative to the world of work and the broader academic context.

### Module Overview

### Additional Information

This module provides students about to embark on their working lives with the opportunity to undertake a self-directed work based learning opportunity relevant to their studies and/or future career trajectory. The aim is that students will be able to identify, assess and reflect upon how their skills and abilities transfer from their academic studies to the world of work and how these skills and abilities have been enhanced via their work based learning opportunity. The module also offers students opportunities to reflect on the links between their work based learning opportunity and their programme of study.
