Module Content

Outline Syllabus	1. Introduction to the Dissertation - The selection of a Research Topic and formulation of a research question.- Establishing a research aim and setting / tailoring objectives to fulfil that goal- The structure and purpose of a dissertation2. Research Approaches and Strategies- The Inductive versus Deductive Approach- Qualitative and Quantitative Research- Data Collection Strategies - Laboratory work- The Knowledge Database. Effective Literature Searching and Literature Reviews3. Data Collection and Analysis - Data Collection Tools - Qualitative and Quantitative Data Analysis - Data Analysis tools
Module Overview	
Additional Information	The dissertation enables students to personally select, and complete an in-depth study on, a topic related to their degree specialism. The module develops students' practical research skills and enhances their knowledge and expertise in their degree specialism. As the completion of a dissertation is principally student-led the module offers the opportunity to further develop time management, presentation and communication skills.
