

## Project

### Module Information

2022.01, Approved

#### Summary Information

Module Code	6305AMP
Formal Module Title	Project
Owning School	Engineering
Career	Undergraduate
Credits	40
Academic level	FHEQ Level 6
Grading Schema	40

#### Teaching Responsibility

LJMU Schools involved in Delivery
Engineering

#### Learning Methods

Learning Method Type	Hours
Practical	110
Tutorial	10

#### Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
JAN-CTY	CTY	January	12 Weeks

#### Aims and Outcomes

Aims	To allow the students to develop their knowledge, skills, and general expertise in relation to a project deliverable embodying technical mastery, good design practice, and self-management on a subject of their choice. The project will provide the opportunity for the students to demonstrate their ability to learn and develop their skills independently culminating in an appropriate media-related deliverable suitable for showcasing to prospective employers.
------	--

**After completing the module the student should be able to:**

**Learning Outcomes**

Code	Number	Description
MLO1	1	Demonstrate a knowledge of and ability to apply design, management, and technical skills within the project.
MLO2	2	Demonstrate to an advanced degree the ability to organise and coordinate the resources at their disposal to achieve project aims, including liaison with technical staff, lecturers and other organisations
MLO3	3	Demonstrate their ability to produce a media-related deliverable which adheres to industry standards
MLO4	4	Demonstrate their ability to learn new skills, acquire new knowledge, adapt current skills and knowledge and apply them to specific outcomes or problems in a self-directing mode of learning.
MLO5	5	Have developed the skills of research, problem-solving, decision-taking during the project.

**Module Content**

Outline Syllabus	Although there is no specific syllabus, the process of achieving a successful end to the project will be:Development of scope, deliverables and timescale.Identification and discussion with supervisor of the problems to be solved or opportunities to be evaluated within the time constraints of the project. Presentation of project in final agreed format.The student will be assessed by their academic project supervisor on their management of the project. This will be based on the upkeep and timely submission of a project log based on adherence to the deliverables cited in the Gantt and minutes of meetings with supervisors to discuss progress and problems/solutions encountered. A minimum number of meetings is expected.
Module Overview	<p><b>Aims</b>  <b>To allow the students to develop their knowledge, skills, and general expertise in relation to a project deliverable embodying technical mastery, good design practice, and self-management on a subject of their choice. The project will provide the opportunity for the students to demonstrate their ability to learn and develop their skills independently culminating in an appropriate media-related deliverable suitable for showcasing to prospective employers.</b></p> <p><b>Learning Outcomes</b>  <b>After completing the module the student should be able to:</b></p> <p><b>1 Demonstrate a knowledge of and ability to apply design, management, and technical skills within the project.</b>  <b>2 Demonstrate to an advanced degree the ability to organise and coordinate the resources at their disposal to achieve project aims, including liaison with technical staff, lecturers and other organisations.</b>  <b>3 Demonstrate their ability to produce a media-related deliverable which adheres to industry standards.</b>  <b>4 Demonstrate their ability to learn new skills, acquire new knowledge, adapt current skills and knowledge and apply them to specific outcomes or problems in a self-directing mode of learning.</b>  <b>5 Have developed the skills of research, problem-solving, decision-taking during the project.</b></p>
Additional Information	The Project is intended to be the embodiment of all components of the course, bringing together theoretical and conceptual aspects into the management of a media project in a realistic technical/commercial.This module aligns to the following UN Sustainable Development Goals:4 Quality Education5 Gender Equality8 Decent Work and Economic Growth10 Reduced Inequalities12 Responsible Consumption and Production

## Assessments

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Portfolio	Log and time management	20	0	MLO1, MLO2
Presentation	Presentation and viva	20	0	MLO3, MLO4
Report	Final written report	30	0	MLO4, MLO5
Artefacts	Media related deliverable	30	0	MLO2, MLO3, MLO4
