Aims and Outcomes

Aims	For students to gain a critical understanding of project management in a variety of contexts
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Critically explore key aspects of project management
MLO2	2	Critically analyse project management skills
MLO3	3	Critically evaluate the importance of project management in third sector organisations

Module Content

Outline Syllabus	- What is project Management?- Why is it important within Health and Social Care?- Skills needed for successful Project Management- Understanding your own skill set- Communication strategies- Planning- financial management- Developing project ideas- Stages of project management- Dealing with challenges- Developing proposals
Module Overview	
Additional Information	Understanding and developing project management skills provides a valuable preparation for work in a variety of roles and settings. The range of opportunities to utilise these skills can include initiating a procedural or policy change within a service or department as well as developing new provision to meet social and community needs. The assessment component of this module will require students to produce a funding application which will provide them with the opportunity of utilising their skills within a 'real life' context as well as enabling them to present their ideas and gain feedback.
