This module requires the student to undertake a minimum of 160 hours on their project. Depending on the selected approach, the 160 hours could be work-related, work-based, or a self-focused equivalence to 160 hours of activity. Development and progress of the project is supported and monitored through a Peer Learning Group (PLG) that meets regularly with a tutor for group and individual tutorials.

## Notes

The module is designed to provide students with an opportunity to negotiate and manage an individually designed project. This work must be within one of the areas of the degree and its subject themes. This work must be original and cannot be a duplication of the dissertation.
