Title: BIOMEDICAL ENGINEERING PROJECT  
Status: Definitive  
Code: **6500ICBTBE** (129109)  
Version Start Date: 01-08-2021

Owning School/Faculty: Pharmacy & Biomolecular Sciences  
Teaching School/Faculty: ICBT, Colombo

Team	Leader
Katie Evans	Y

**Academic Level:** FHEQ6      **Credit Value:** 40      **Total Delivered Hours:** 15  
**Total Learning Hours:** 400      **Private Study:** 385

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Seminar	4
Tutorial	11

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	Interim	Interim report	20	
Presentation	Viva	Presentation, Viva, and Poster	30	
Technology	Final	Final report	50	

### Aims

*To enable students to complete a substantial piece of individual work and build on their expertise in a Biomedical Engineering subject. To develop students research, time management, presentation and written communication skills.*

*The project aims to provide a supervised but student led learning activity in the area*

*of Biomedical Engineering. It aims to develop the academic, technical and organisational skills required to undertake a substantial individual engineering project from specification to conclusion.*

## **Learning Outcomes**

After completing the module the student should be able to:

- 1 Conceptualise and plan a supervised but self-led project
- 2 Carry out a self-managed programme of work according to good project management practices
- 3 Research and analyse the established body of knowledge relevant to the project
- 4 Demonstrate deep technical understanding of their project
- 5 Communicate technical information clearly and concisely in written and oral forms
- 6 Critically evaluate all aspects of a project and formulate justified conclusions

## **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Interim Report	1	2	3	5
Presentation, Viva, and Poster	4	5	6	
Final Report	2	3	4	5

## **Outline Syllabus**

*The project should be relevant to the field of Biomedical Engineering. Projects may involve experiment, analysis, design and/or computation and should allow a student to demonstrate achievement of the module learning outcomes.*

## **Learning Activities**

The project will be supported by regular tutorials with a project supervisor and occasional seminars on topics relating to research methods, critical writing/ thinking and presentation skills.

## **Notes**

This module is part of the Level 6 of the BEng(Hons) in Biomedical Engineering
