

Liverpool John Moores University

Title: PAEDIATRIC EMERGENCY NURSE PRACTITIONER-MINOR INJURIES
Status: Definitive
Code: **6501PQHEAL** (100556)
Version Start Date: 01-08-2014

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Royal Liverpool Children's NHS Trust

Team	Leader
Dave Melville	

Academic Level: FHEQ6 **Credit Value:** 30.00 **Total Delivered Hours:** 131.00
Total Learning Hours: 300 **Private Study:** 169

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	36.000
Off Site	75.000
Seminar	10.000
Tutorial	10.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	AS4	Written assignment	40.0	
Practice	AS1	Logbook related to clinical practice	60.0	

Competency	Practice

Aims

1. To critically analyse the knowledge, skills and understanding required of an

emergency nurse practitioner to provide a safe and effective assessment, diagnosis and treatment of children presenting with minor injuries to include clinical examination skills, pain management and associated pharmacology and x ray interpretation.

Learning Outcomes

After completing the module the student should be able to:

- 1 Competently and consistently take an accurate history, examine and complete documentation for a range of patients
- 2 Refer for appropriate radiological/haematological investigations and interpret findings
- 3 Diagnose, prescribe and manage the total care of children/young people with minor injuries.
- 4 Critically analyse the accountability of an emergency nurse practitioner
- 5 Critically evaluate the evidence base for the holistic management of children and young people and their families within the E department
- 6 Critically analyze your updated knowledge of anatomy and physiology, relating it to the current evidence base for specified conditions and minor injuries.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Essay	4	5	6			
logbook	1	2	3			
Practice	1	2	3	4	5	6

Outline Syllabus

Clinical documentation and history taking. Legal and ethical implications. Consent. Safe guarding children. Family Centred Care. Reflective practice. Normal and disordered anatomy and physiology relevant to minor injuries. Wound healing and dressings. Clinical examination skills. X ray interpretation. Suture workshop. venepuncture and cannulation. Analgesia and local anaesthesia

Learning Activities

A blended approach to learning which includes, lectures, tutorial, discussions, seminars, work shops, simulated and work based strategies. Clinical practice working with emergency nurse practitioners.

Notes

An exciting module for emergency practitioners. This course will enable practitioners to expand their knowledge and skills when working in a range of settings with children who have minor injuries.

To successfully pass this course the students will have to be assessed at level 4 of the RLCH (Alder Hey) competency assessment in minor injuries. This will contribute to meeting Learning Outcomes 1,2, 3,5 and 6 of the module and is graded as either Pass or Fail.

Attend 75 hours of clinical practice - this will also contribute to meeting Learning Outcomes 1,2,3,5, and 6. Again, grading for this element is Pass or Fail.

Produce a written assignment (3000 word) about the accountability of an emergency care practice nurse.

Completion of a log book. This is sumative and will enable you to achieve level 4 competency and will contribute to meeting Learning Outcomes 1,2 and 3.
